<small>Public Education Online: The statewide Online Education Program [www.schools.utah.gov/edonline] allows students to earn high school graduation credit through online providers. Students may access high quality online learning regardless of where they attend school, language, residence, family income, or special needs. This program allows students to acquire knowledge and technology skills for a digital world. Students can utilize technology to customize education and to learn in their own style, at the own pace. They can access learning virtually at any time and in any place. Students may accelerate academically. They can customize their schedules to better meet their academic goals. Quality learning options better prepare students for post-secondary education and vocational or career opportunities by allowing them an individualized educational experience. *Course descriptions can be found at hs.utahonline.org</small>
